

### MOLD and MILDEW

No matter how hard we all try, mold and mildew spots can occur in the caulking/silicone and grout in your tub or shower systems. Bathroom Plus Inc does **NOT warranty against mold or mildew**. This is something that simply cannot be controlled. Our policy is that if mold or mildew occurs within the first year of your installation, we will come out to your home, scrape out the old silicone/caulk or grout and install new silicone/caulk or grout at NO charge. Any time after the first year of installation, we will charge a \$125.00 re-caulk or re-grout fee.
